

MOHAMAD TOHARI MAOLANA

FRONT END DEVELOPER

Jalan Boulevard Sekar Tanjung, Parung Panjang 16360, Indonesia | devsitohari@gmail.com | +6281319892035

PROFILE

Frontend Developer, Community Builder, and Technology Enthusiast with hands-on experience developing web applications for education, community organizations, and digital literacy initiatives. Led Informatics Study Club (ISC) as Chairman, organized technical learning programs, and mentored teams that achieved multiple national competition awards. Recognized as a National UI/UX Competition Winner with a strong interest in user-centered design and modern web development. Committed to building meaningful digital solutions that create real impact for users and communities.

PROFESSIONAL EXPERIENCE

Web Developer, SDN Rengas **Apr 2026 to Jul 2026**
Ciputat

- Developed and implemented a responsive school profile website and Digital Literacy Center platform for SDN Rengas.
- Collaborated with a multidisciplinary team to gather requirements, design user-focused interfaces, and deliver digital solutions for educational environments.
- Improved accessibility of school information, literacy resources, and digital learning content for students, teachers, and parents.
- Built modern frontend components and optimized user experience across desktop and mobile devices.
- Supported the school's digital transformation initiative, recognized through regional media coverage for promoting educational technology and digital literacy.

Front-End Developer , PK2M (Projek Kompetensi Kewarganegaraan Multikultural) **2025 to Aug 2025**
Pamulang

- Developed and maintained responsive user interfaces for the PK2M (Projek Kompetensi Kewarganegaraan Multikultural) web platform using modern frontend technologies.
- Collaborated with academic teams to transform educational and civic-learning content into an interactive digital platform accessible to university students.
- Implemented responsive layouts, reusable UI components, and user-friendly navigation to improve accessibility across desktop and mobile devices.
- Worked closely with stakeholders to ensure platform functionality aligned with educational objectives and multicultural citizenship learning initiatives.
- Contributed to the digitalization of learning resources, supporting student engagement in multicultural citizenship projects and civic education activities. The platform was designed as a digital medium for strengthening multicultural citizenship competencies among university students.

Front-End Developer, Lab Shar'e UNPAM **May 2025 to Aug 2026**
Pamulang

- Converted UI/UX designs into responsive and production-ready web interfaces for the LabShar'e digital platform.
- Built reusable frontend components and optimized layouts for cross-device compatibility.
- Collaborated with designers and stakeholders to ensure design consistency and seamless user experience.
- Improved accessibility, usability, and visual presentation of digital services through modern frontend development practices.
- Supported the development of a university-industry digital platform designed to facilitate educational, business, and technology-related activities.

Community Service Volunteer, Kedai Ruang Pulang Kota Depok**Oct 2026 to Dec 2026**

Depok

- Collaborated with a team of university students in delivering a community service initiative focused on digitalizing business operations for a local UMKM.
- Assisted in project coordination, stakeholder engagement, activity planning, and program implementation.
- Facilitated communication between project teams and business stakeholders to support smooth adoption of digital tools and workflows.
- Contributed to documentation, event execution, and knowledge-sharing activities throughout the program.
- Helped promote technology adoption and digital literacy within the small business community.

Chairman, Informatics Study Club (ISC), Universitas Pamulang**May 2025 to May 2026**

Pamulang

- Led the strategic direction and operations of a student technology community focused on Web Development, Data Science, and UI/UX Design.
- Mentored and coordinated multiple competition teams, contributing to **4 national-level achievements** in technology and digital innovation competitions.
- Initiated and managed weekly technical learning programs, helping members strengthen practical skills and industry readiness.
- Organized community events, workshops, and collaborative projects that promoted technical excellence, teamwork, and professional growth.
- Built an active learning ecosystem that empowered students to expand their technical expertise, leadership capabilities, and professional network.

National UI/UX Competition — 2nd Place, Multimedia In Action, UPN Veteran**Nov 2025**

Jakarta

Jakarta

- Collaborated with a multidisciplinary team to design and present a user-centered digital solution.
- Conducted user research, wireframing, prototyping, and design validation.
- Achieved 2nd Place among 211 teams and 560+ participants nationwide.

Guest Speaker, Universitas Pamulang**Apr 2026**

Pamulang

- Selected as a speaker to share experiences and lessons learned from achieving **2nd Place in a National UI/UX Competition**.
- Presented topics including user-centered design, problem-solving methodologies, design iteration, and digital product innovation.
- Inspired students through real-world case studies, emphasizing the importance of continuous learning, collaboration, and growth mindset in technology careers.
- Facilitated interactive discussions and knowledge-sharing sessions with students interested in UI/UX and digital product development.
- Demonstrated strong public speaking, presentation, and leadership skills while contributing to the learning ecosystem within the university community.

EDUCATION

Universitas Pamulang, Pamulang**Sept 2023 to Sept 2027**

Bachelor of Informatics Engineering (B.Sc. in Computer Science)

GPA: 3.50+

Throughout my academic journey at Universitas Pamulang, I have actively combined technical learning, leadership, and real-world project experience. Beyond coursework in software engineering, web development, databases, and computer science fundamentals, I have contributed to various educational technology and community digitalization projects as a Front-End Developer and Web Developer.

I currently serve as **Chairman of Informatics Study Club (ISC)**, leading technology-focused initiatives, organizing weekly learning programs, mentoring competition teams, and fostering a collaborative learning environment for students interested in Web Development, Data Science, and UI/UX Design.

My contributions extend beyond technical development through public speaking and knowledge-sharing activities, including being invited as a guest speaker to share experiences in design innovation, technology competitions, and personal

development. I also achieved **2nd Place in a National UI/UX Competition**, competing against hundreds of participants from various universities across Indonesia.

Through academic projects, leadership roles, competitions, and community engagement, I continue to develop strong technical, communication, teamwork, and problem-solving skills while preparing for a professional career in technology.

SMKS YP IPPI Petojo, Jakarta Pusat

Mar 2020 to Sept 2023

Vocational High School — Software Engineering (Rekayasa Perangkat Lunak)

Graduated from the Software Engineering program with strong academic performance and a solid foundation in programming, software development, and computer systems. During my studies, I developed fundamental skills in web development, programming logic, databases, and software engineering practices that became the foundation of my technology career.

Successfully earned a **Computer Programming Competency Certification** issued by **Badan Nasional Sertifikasi Profesi (BNSP)** through **LSP P1 Garuda**, validating professional competencies in programming and software development according to national industry standards.

The vocational education experience strengthened both technical capabilities and practical problem-solving skills, motivating me to pursue higher education and continue building expertise in software engineering and digital technology.

TECHNICAL PROFICIENCIES

Technical Skills: React.js, Javascript, HTML5, CSS, Responsive Web Design, REST API Integration, Supabase, Git & GitHub, Figma

Leadership & Communication: Team Leadership, Public Speaking, Community Building, Technical Presentation

Software Engineering: UI/UX Design, Requirement Analysis, Debugging & Testing
